

### Technical details Spiral Energy Box

---

By a special process spiral energy is put and stored on quartz crystals and for the reason that the box is made of conducting materials the spiral oscillations (spiral energy ) are transferred through the water pipe to the incoming water.

The spiral energy encourages the creation of oxygen and the light frequency (biophotons), stimulates and normalizes the cluster confirmation of the water. Water becomes live water and gets back its original frequency. By the high level oscillations of the water all substances with low level oscillations have no longer effect, means nitrates, chlorine, pesticides, bacteria ... can no longer cause any harm!!!

The Spiral Energy Box has to be installed on the **main** water pipe after reservoir

<b>Spiral Energy Box</b>	<b>½"</b>	<b>¾"</b>	<b>1"</b>
pipe volume:	67mm	84mm	105,0mm
pipe diameter-outside:	20,7mm	26,1mm	32,9mm
dimensions – l x w x h:	190 x 100 x 90mm		
weight:	1,20 Kg	1,40 Kg	1,4 Kg
material:	special plastic material with quartz crystals and silicon percentage > 97%
